

Vaccine Protocols for your Kitten

Vaccines selected for your pet will be discussed at your Annual Wellness examination, in an effort to create the best protection for you and your cat's circumstances. Parasite control and Flea control will also be discussed and selected according to your pets and family's risk level.

Vaccine Protocol:

8 weeks old – 1st Combo Vaccine (FVRCP)

12 weeks old – 2nd Booster Vaccine (FVRCP)

16 weeks old – 3rd Booster Vaccine (FVRCP) (1 year vaccine)
Rabies (1 year vaccine)

1 year Later – Annual Adult Combo Vaccine (FVRCP)
Rabies (3 year vaccine)
